Do I Need My Dryer Vents Cleaned Today?

There are many warning signs that indicate an issue with a dryer vent.

3 Things To Look For:

Longer Drying Time

Excess Lint Behind Dryer

Moldy Smell

Did You Know?

According to the National Fire Protection Agency (NFPA), more than 15,000 home-structure fires involve clothes dryers each year.

How Often Should My Dryer Vents Be Cleaned?

Depending on how often you use your dryer, it should be cleaned once a year or up to every 3 months.

Today's In-Home Special:

\$185*

PLUS

Ask about our Comfort Group membership program and how you could have this service included in your Group membership plan!

*Additional cleaning fees may apply, contact store for details.
